

Alain Jaume - 2022

Terroir

The soil is made up of well-draining gravel deposited by the rivers at the confluence of the Isère and the Rhône. They store heat and thus promote a beautiful expression of the Syrah.

Grape Varieties

Syrah

Winemaking & ageing

Manuel harvesting, vinification in stainless steel vats. Total scraping. Prefermentation cold maceration.

Tasting

On the nose, pronounced aromas of violet, blueberry and blackcurrant mingle with undertones of mint and black pepper. On the palate, we discover a fine, juicy and pleasant wine, with a velvety texture.

Advices

Between 1 to 5 years. Best poured at 16°C
